SkyePlane

Creative Architectural Recessed Luminaire

axis

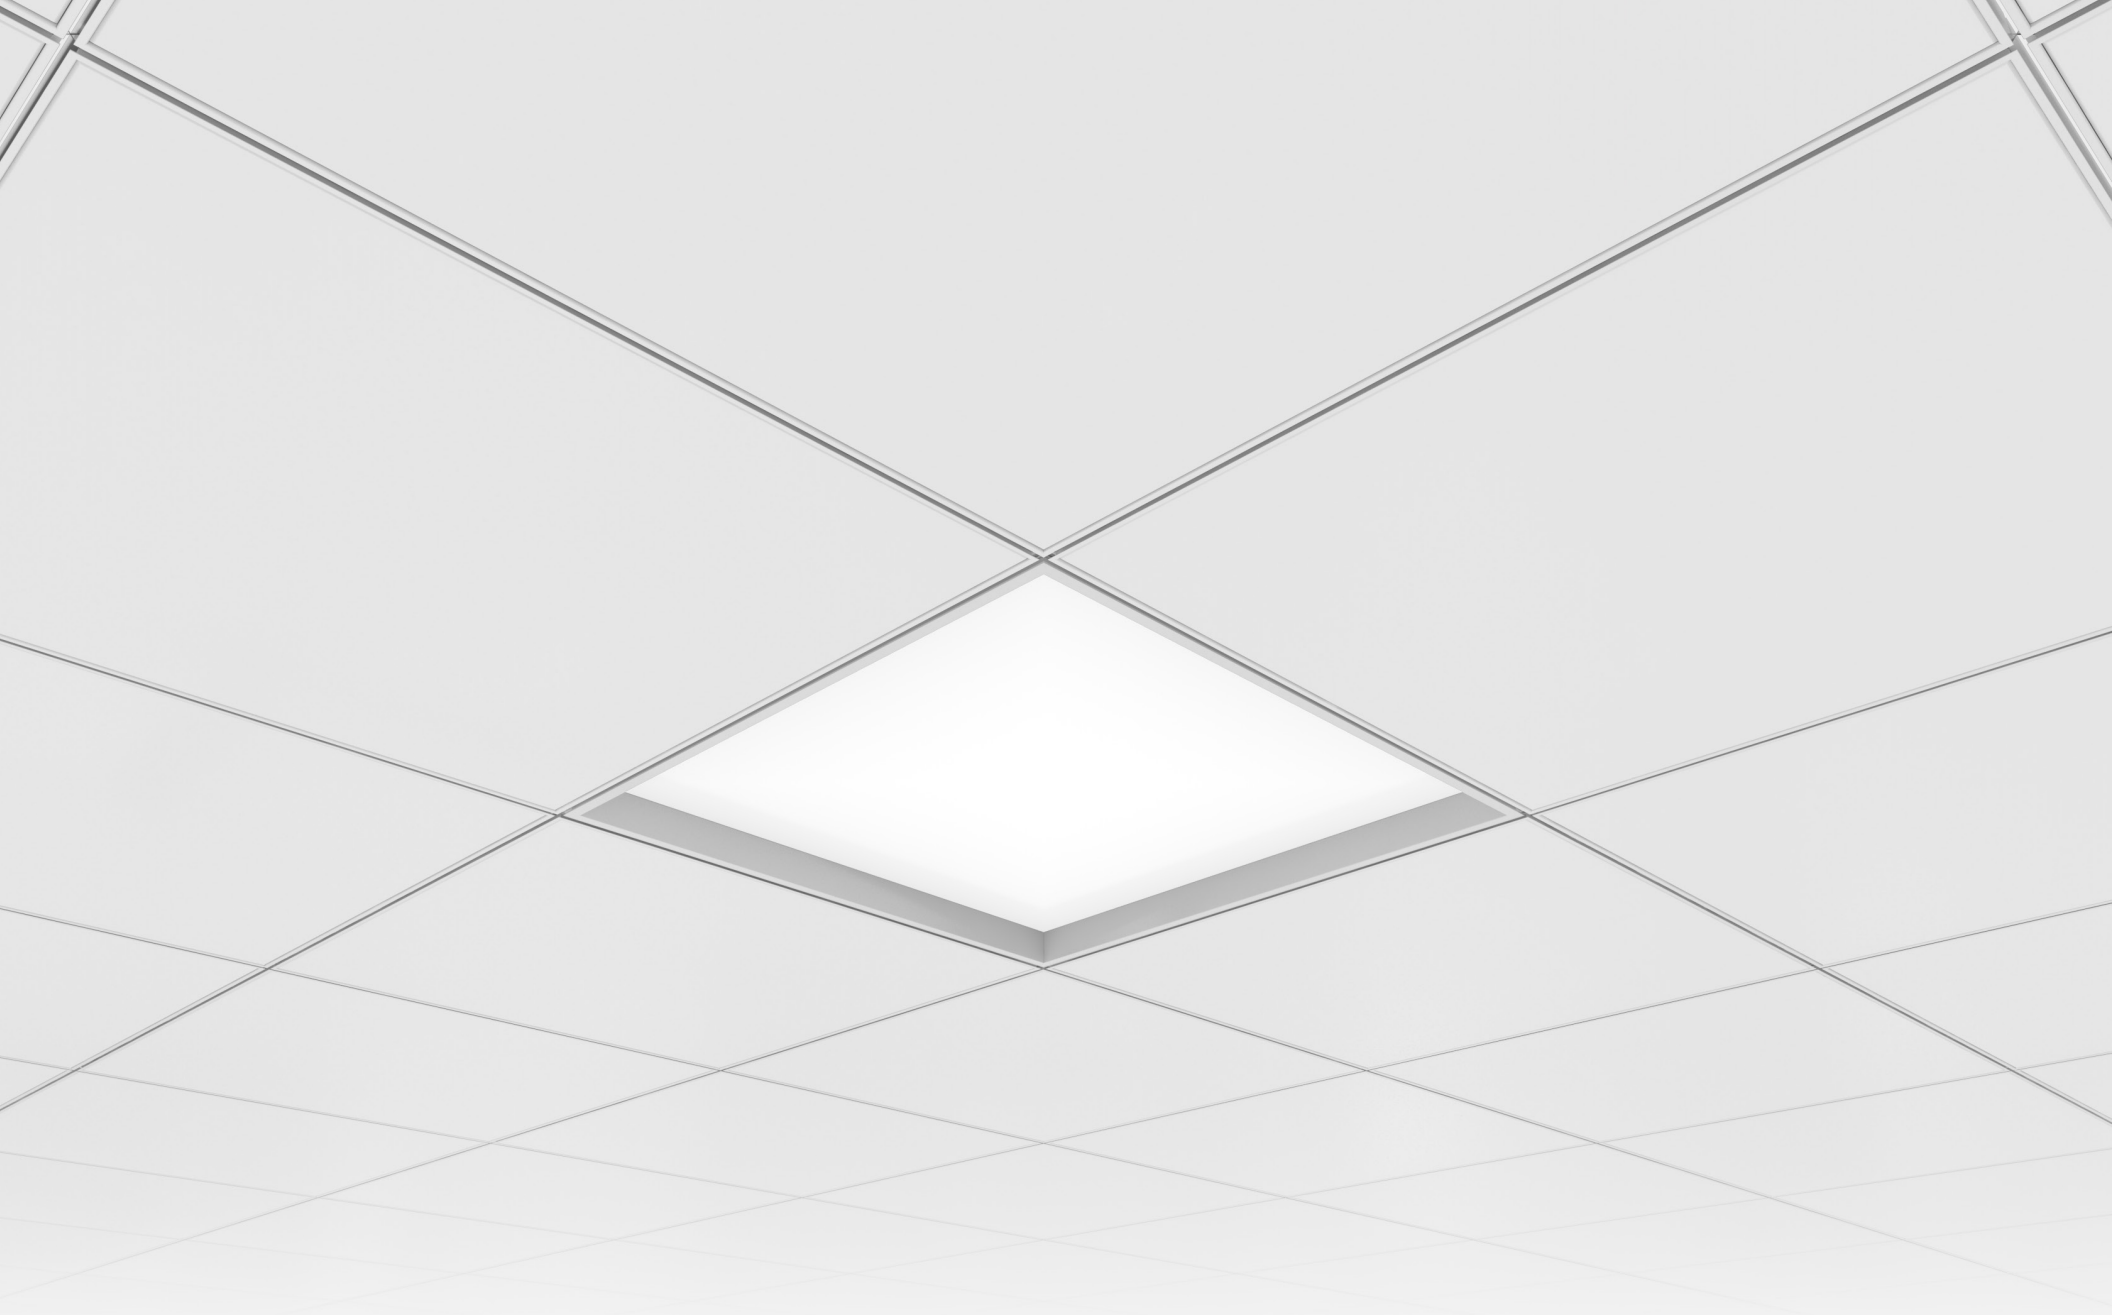
SkyePlane

An elegantly regressed lens forming a skylight appearance

SkyePlane is the latest addition to the Skye line of luminaires.
It features a wide range of forms well suited to small and large interiors.

- ✓ An affordable way to create signature luminous ceilings
- ✓ Regressed lensing provides effective shielding angle
- ✓ Evenly diffuse lens ensures balanced luminance and visual comfort
- ✓ Easy-to-remove lift'n'shift lens has no visible latches
- ✓ Mounting kit available for installing 1' x 1' in center of tile
- ✓ Optional Axitune Dim-to-Warm and Tunable White

Axitune



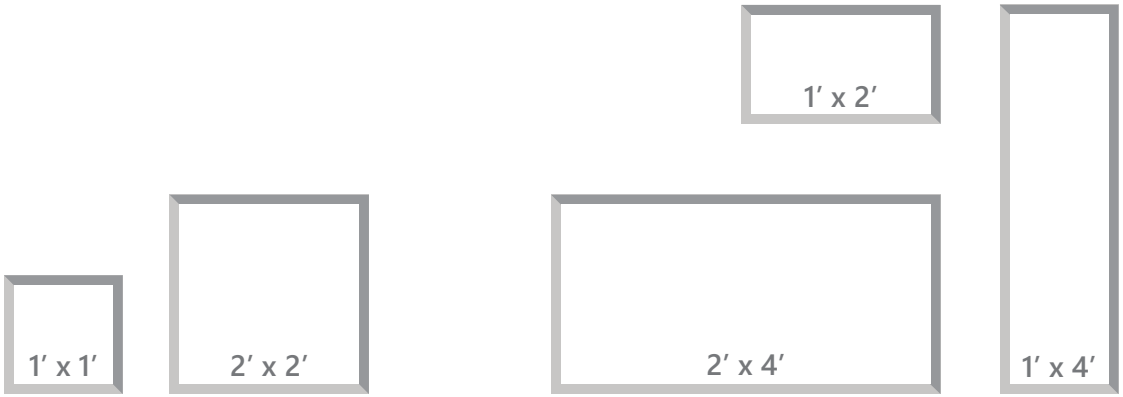
2x2 shown. Also available in 1x1, 1x2, 1x4 and 2x4

SkyePlane

Remodel the grid with inspiring planes of light

Break free from traditional ceiling grid lighting with SkyePlane, a playful design tool that comes in five different luminous squares and rectangles.

Create a uniform look using a single luminaire size or mix and match dimensions to design unique ceiling patterns.



About Axis Lighting

Founded in 1991 and still family owned and managed, Axis is an important source for architectural lighting across North America and around the globe.

Over the last decade, the company has exhibited remarkable growth thanks to its commitment to Design Flexibility, Optimal Energy Efficiency and Responsive Customer Care. That leadership effort now extends to developing Innovative Lighting Technologies, such as SurroundLite™, on an ongoing basis.

On the strength of a broad and expanding product line, Axis has successfully completed lighting projects for high-profile clients including Apple, Chrysler, The Empire State Building, Google, Hyundai, Time Warner and McGill University, among many others.

Axis has the drive and the expertise to meet your needs and provide architectural lighting... your way.

We reserve the right to change specifications without notice.
Please consult our website for the most current technical information
and to locate your nearest Axis representative.
