Adjustable Downlight in Beam 6 housing

Adjustable Downlight

Beam 6 Adjustable Downlight

Highlight the space with elegant accents

Create ambience without clutter using Beam 6 Adjustable Downlights, a highly appealing, visually comfortable solution for linear products.

Combine Beam 6 general lighting with these powerful accent lights featuring a clean ceiling appearance. Or use Adjustable Downlights as stand-alone modules in a Beam 6 housing.

The regressed cone and cam-action locking device deliver precise aiming that eliminates flashing on the trim.

Adjustable Downlights are mounted in Beam 6 housings using faceplates (12" min. length), allowing for integrated multi-unit installations.

Beam 6 Adjustable Downlight

About Axis Lighting

Founded in 1991 and still family owned and managed, Axis is an important source for architectural lighting across North America and around the globe.

Over the last decade, the company has exhibited remarkable growth thanks to its commitment to Design Flexibility, Optimal Energy Efficiency and Responsive Customer Care. That leadership effort now extends to developing Innovative Lighting Technologies, such as SurroundLite™, on an ongoing basis.

On the strength of a broad and expanding product line, Axis has successfully completed lighting projects for high-profile clients including Apple, Chrysler, The Empire State Building, Google, Hyundai, Time Warner and McGill University, among many others.

Axis has the drive and the expertise to meet your needs and provide architectural lighting... your way.

We reserve the right to change specifications without notice.
Please consult our website for the most current technical information
and to locate your nearest Axis representative.
