

Elle™

Graceful luminous statements

 Introducing CLS Optic™

Elle Ceiling Line

Elle™

Luminous architecture

Introducing Elle, a streamlined, concave lighting instrument that blends into the space. As the feathered, esthetic glow plays off surfaces, luminaire and architecture work together and become the lighting system.

With its patent-pending Curved Luminous Surface Optics (CLS Optic™), Elle is well suited to a broad range of architectural applications, delivering soft but functional light onto perimeter walls and surfaces or creating vertical design interest.

Organic design

Drawing inspiration from elegance

The look

Elle derives its name from elegance, the fundamental underpinning of the luminaire design – so unique that a design patent is pending. Pure, fluid lines and a rounded lens extend the architect’s linear lighting vocabulary. The noninvasive curved profile softens the surroundings and follows the contours of any space. The luminaire’s sleek appearance is well suited to forming continuous runs throughout a space, whether it be a room, a floor or as the lighting theme for an entire building.

The lighting effect

Elle produces a gentle, uniform glow that mitigates contrast while enhancing interior design with visually appealing luminosity. It features a beautifully sculpted light source made possible by the Curved Luminous Surface Optic (CLS Optic™), patent-pending lightguide technology developed by Axis.

The curved one-piece polycarbonate lens design promotes quick and easy cleaning.

Mini-driver

Lens appeal

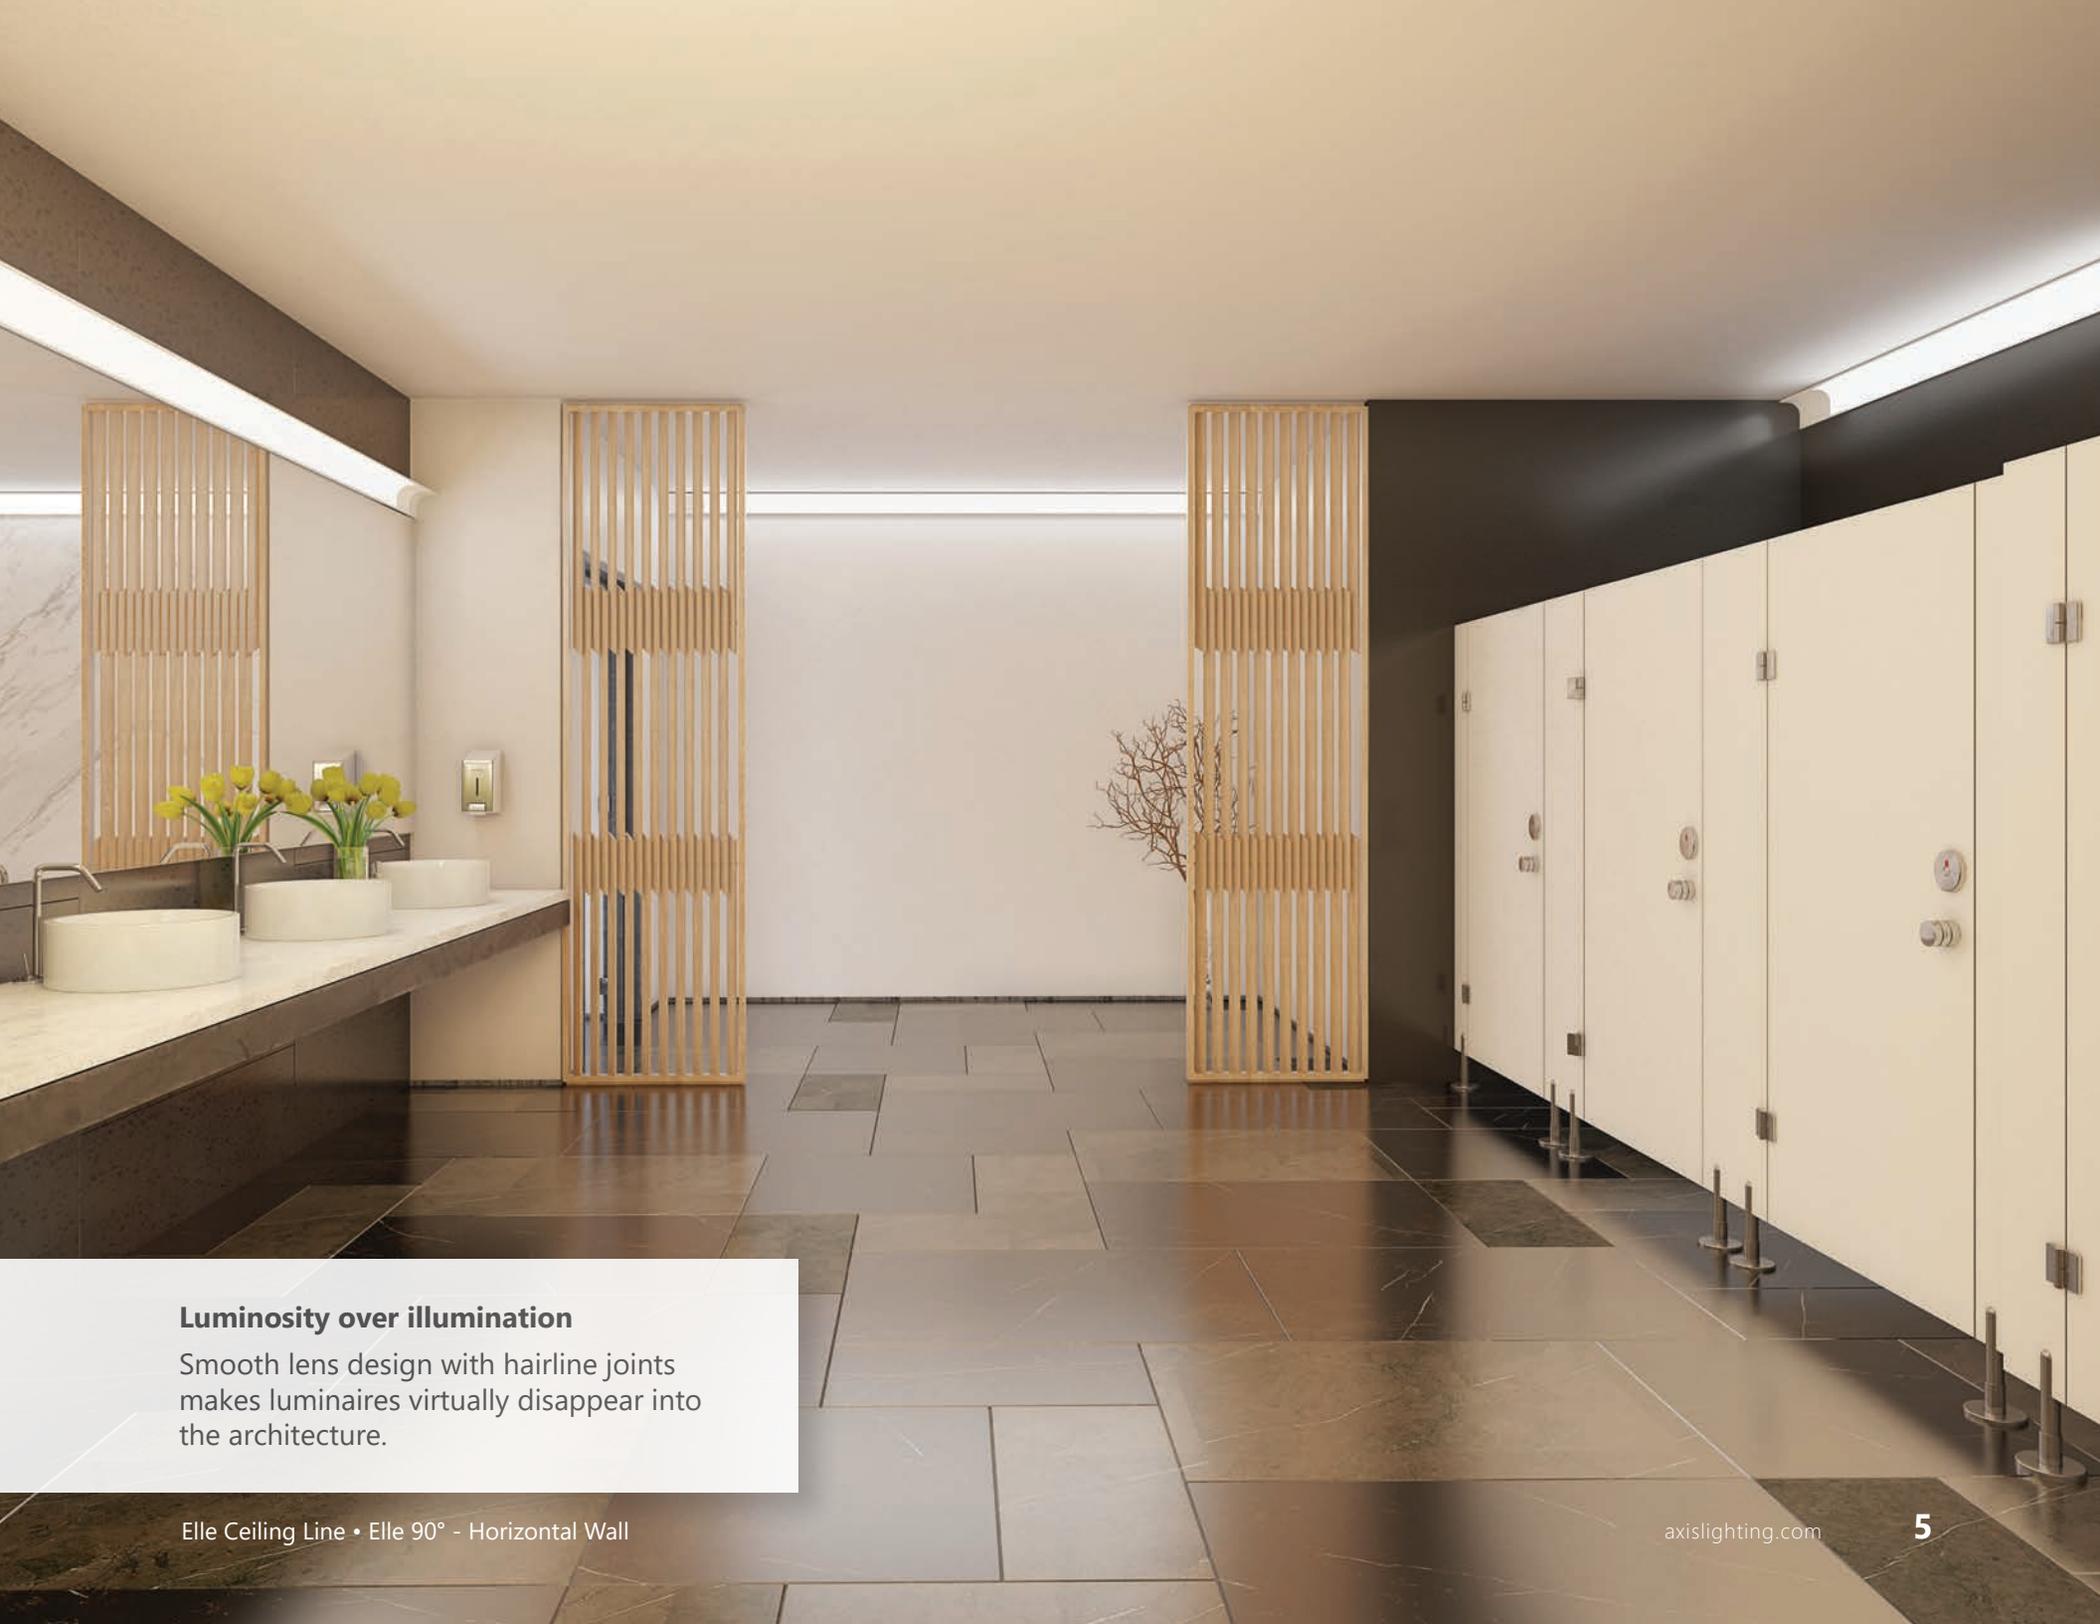

Creating interest from every angle

With Elle, the lens is the light.

Thoughtfully designed, the lens does more than provide lighting... It delivers light source esthetics and helps define architectural elements.

The curved form is easy on the eyes. It follows the contours of an area and dots the walls, expanding the space while supporting design expression.

Elle's softly lit lens surface distributes uniquely comfortable glare-free luminance with lower perceived brightness that ensures visual interest.

Luminosity over illumination

Smooth lens design with hairline joints makes luminaires virtually disappear into the architecture.

Visual integration

Blending in by design

The Elle story is mainly about luminance, and architectural flexibility is a close second. Its rounded form softens. Its linearity unifies, differentiating levels, surfaces and ceiling heights. Elle can also elevate important design elements, such as doors, alcoves and columns.

Features

- ✓ Horizontal & vertical mounting options
- ✓ Surface and wall configurations
- ✓ Individual segments up to 8' (6" increments)
- ✓ Continuous runs with practically invisible joints
- ✓ Choice of flat or step end caps
- ✓ Innovative InstaHinge™ mounting track for Elle Ceiling Line and Elle Corner
- ✓ Listed for damp locations

Joints in runs disappear by virtue of the luminaire's exceptional surface uniformity

CLS Optic™

Technology ahead of the curve

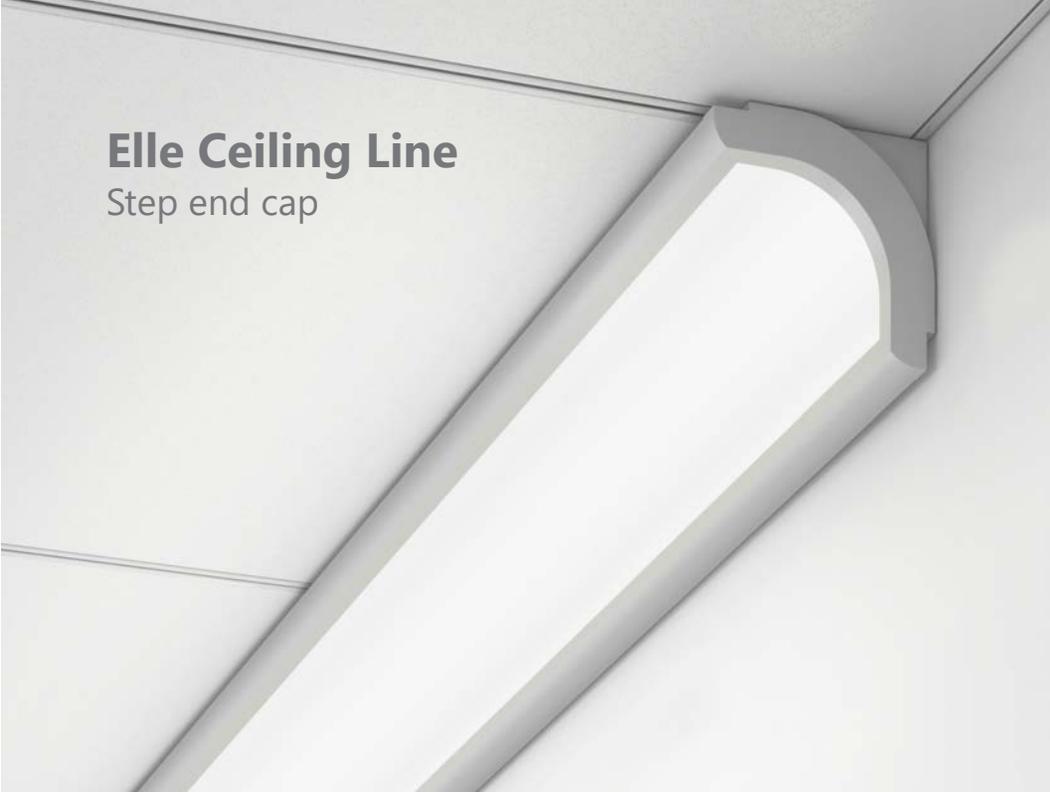

The Elle housing is inconspicuous, putting the lens center stage. This design strategy promotes visual appeal and seamless visual integration within the architectural space.

The compact, minimalist luminaire incorporates a specially engineered Curved Luminous Surface Optic (CLS Optic™), with patents pending on both the lightguide technology and the form itself.

Compared to similar-sized luminaires, Elle can deliver the same light output over a greater surface area owing to the curved form of the lightguide. This results in softly feathered luminance and superior visual comfort.

Stylish alternatives

One look, multiple mounting options

Designed to mimic moldings, Elle is a welcome addition to the architectural lighting toolkit, with lines of light and wall sconces. Given its streamlined look and wide-ranging functionality, Elle is a perfect fit for a wide range of lighting applications.

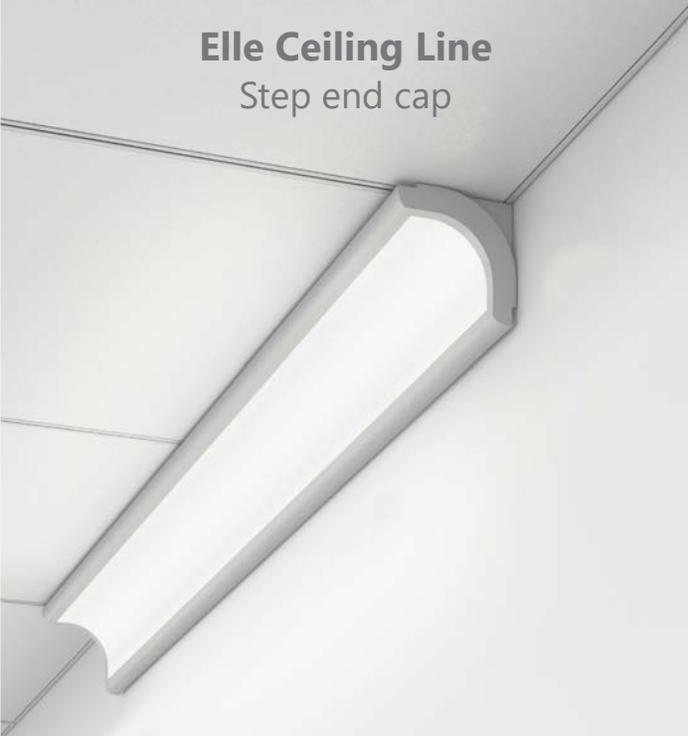

Flat end cap imparts a clean finish.

Step end cap adds modern flair.

Wall-mounted track for Elle Ceiling Line and Elle Corner **Innovative InstaHinge™**

The InstaHinge is a revolutionary 2-step system for mounting Elle and other Axis luminaires in wall to ceiling and wall to wall configurations. Anchored to a track embedded in the drywall, the InstaHinge secures the luminaire while allowing for easy serviceability.

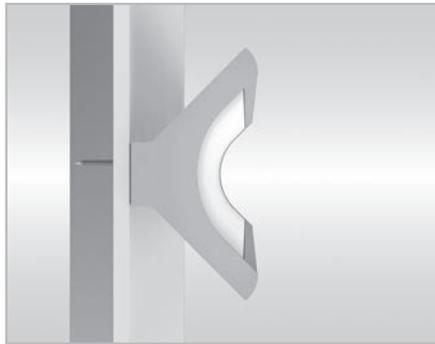

1. Deactivate the lock spring by prying down the lip at the top of the luminaire.
2. Hinge the fixture down to access the driver cavity at the back. Voilà! It's that easy.

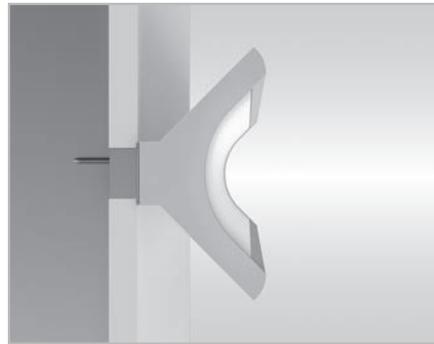

Mounting flexibility, beautiful results

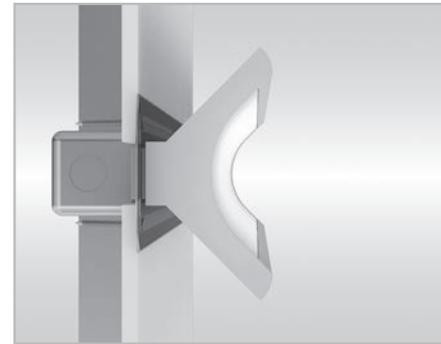

With Elle Ceiling Line, Corner, 45°, and 90° luminaire styles - plus the versatility of several mounting options for both wall and surface - Elle makes elegant lighting simple.

Surface Mount (MT)

Drywall Flange (DF)

Drywall Spackle (DS)

More luminous artform than lighting tool

With its concave lightguide, Elle features an advanced design with a wide variety of mounting options.

350 to 1000 lm/ft

Go for lens appeal

Discover Elle... Elegant design. Lighting performance.
Architectural flexibility.

Elle is part of a growing collection of Axis linear luminaires boasting a variety of luminous profiles, all visually appealing in their own way. These include the rectilinear luminous form of Edge 2 and the distinct luminous planar shape of Pose®.

About Axis Lighting

Founded in 1991 and still family owned and managed, Axis is an important source for architectural lighting across North America and around the globe.

Over the last decade, the company has exhibited remarkable growth thanks to its commitment to Design Flexibility, Optimal Energy Efficiency and Responsive Customer Care. That leadership effort now extends to developing Innovative Lighting Technologies, such as SurroundLite®, on an ongoing basis.

On the strength of a broad and expanding product line, Axis has successfully completed lighting projects for high-profile clients including Apple, Chrysler, The Empire State Building, Google, Hyundai, Time Warner and McGill University, among many others.

Axis has the drive and the expertise to meet your needs and provide architectural lighting... your way.

We reserve the right to change specifications without notice.
Please consult our website for the most current technical information
and to locate your nearest Axis representative.
