*Additional 5 working days required.			*Specify quantity	Requires 120V or 277V Please consult factory

Refer to specification sheets for complete details. Note that only options shown above qualify for QuickShip+.

How to Specify 90 degree Corners and Patterns

Example

Defining R - Rectangular shape

Defining L shape

Note: The first number will always define the width, the second - the length.

Defining U shape

Note: The first number will always define the right arm length, the second - the width, and the third - the left arm length.

Defining S - Square shape

Note: The number will define the width. (All sides are the same length).

IMPORTANT – all corner patterns must be submitted with drawings indicating dimensions and angles degree.
