

# Zen

## Compact Inverted-U Linear Downlight Pendant

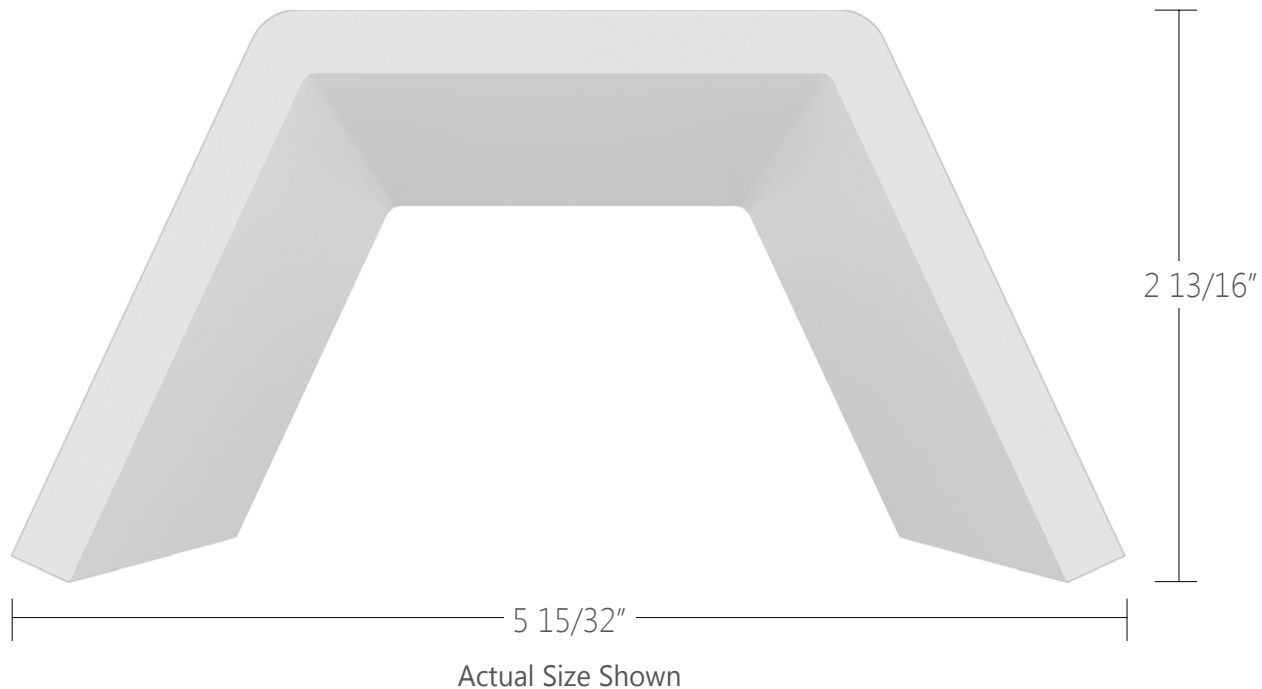

**Microgroove Extruded Aluminum**  
side shielding with upper acrylic lens  
(MAL) shown

# Sleek design. Superior lighting power.

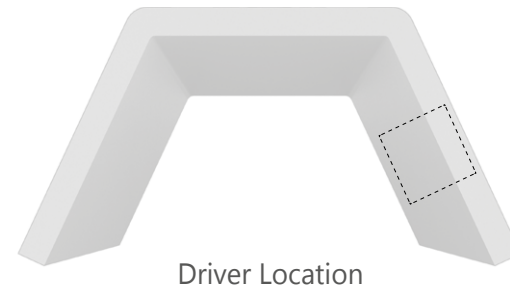

Patent-pending, compact inverted-U downlight optical concept balances form and function. Create continuous rows that can be widely spaced for maximum design flexibility.

## Integral LED Mini-Driver

This dimmable integral LED mini-driver is one of the smallest of its kind in the world. Reduce installation time and costs by eliminating the need for remote drivers.

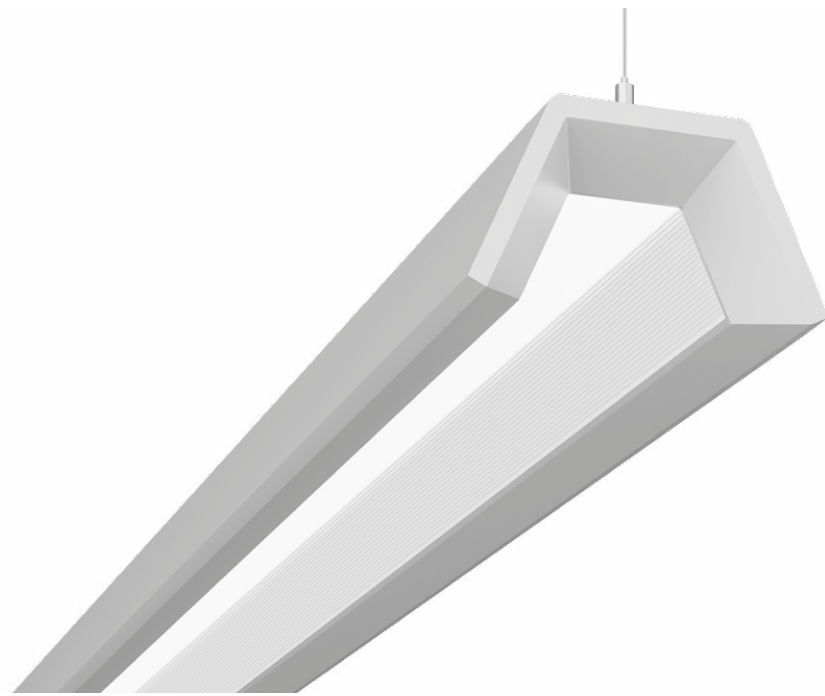

# A new level of architectural integration

Zen is the soft-light solution for inverted-U pendant forms. It is the only suspended luminaire of its kind to provide such comfortable and effective (up to 112 lm/W) lighting, emitting more downward luminance from the top than from the sides.
