### ● SYSTEM (S#)

Wall Wash Perfekt linear systems, with the use of a strong profile, allow for a nearly hair thin connection system of continuous runs. Lengths from 2' to 12' are available in 1' increments. Runs of Wall Wash Perfekt that are greater than 12' in length are designated as systems (S#). This means that the run is comprised of a combination of standard length sections ranging from 4' to 12' to be assembled on site using our joining system. For more information on systems and joining, please refer to the Wall Wash Perfekt installation sheets available for download at [www.axislighting.com](http://www.axislighting.com).
