

EDGE 2 | SURFACE MOUNT DIRECT REGULAR CORNER PATTERNS

IMPORTANT – all corner patterns must be submitted with drawings indicating dimensions and angles degree.

Ordering Guide

PRODUCT ID	PATTERNS	CORNER DEGREES	LUMENS/FT DIRECT	CRI	COLOUR TEMP.	SHIELDING
ED2SPAT ED2SPAT Surface Mount LED	S(L) square pattern R(LxL) rectangle pattern U(LxLxL) U-shape pattern L(LxL) L-shape pattern FF(L) free form pattern (total length)	I inside lit corners O outside cast corners* MIX mixed inside lit and outside cast corners**	250 250 lm/ft - Min 1000 1000 lm/ft - Max	80 80 CRI 90 90 CRI	27 2700 K 35 3500 K 30 3000 K 40 4000 K	UB Ultra Blend Lens
Please note that only 90° corners are available.		* Ships with corner element assembled to luminaire(s) ** Only available with FF(L) free form pattern. Please specify light direction on the drawing. Consult factory.		Outputs between listed min and max are available. Consult factory for outputs outside of the listed range.		
MOUNTING POSITION	GROOVE FINISH (OPTIONAL)	LENGTH/FT	SPECIFY LENGTH	FINISH	VOLTAGE	DRIVER
SCE Surface ceiling	AP aluminum paint	(L) total pattern length	NL nominal	AP aluminum paint	120 120 V	DP dimming (0-10V) 1% - integral*
SCO Surface corner*	W white		EX exact	W white	277 277 V	LT Lutron-remote ⁽¹⁾ - remote**
	BLK black			BLK black	347 347 V*	BI bi-level dimming - remote**
	C custom			C custom	UNV universal	O(#) other ⁽²⁾ - remote*
					DC low voltage**	POE(#) POE drivers ⁽¹⁾
*Not available with groove finish	Not applicable for surface corner mounting position (SCO)	Please consult factory		* Corner element finish same as luminaire finish	* Remote driver only. ** Only available with POE drivers.	* Not available with 347V ** Remote driver (1) See page 2 to specify system. Remote only. (2) Please consult factory
CIRCUITS	MOUNTING/SUSPENSION	END CAP	BATTERY - REMOTE (OPTIONAL)	CUSTOM (OPT.)

		For close end cap only	Remote only	Please specify		

How to Specify 90 degree Corners and Patterns

Example

Defining R - Rectangular shape

Defining L shape

Note: The first number will always define the width, the second - the length.

Defining U shape

Note: The first number will always define the right arm length, the second - the width, and the third - the left arm length.

Defining S - Square shape

Note: The number will define the width. (All sides are the same length).

ELECTRICAL

Lutron driver LDE1 - Hi-lume 1% EcoSystem with Soft-on, Fade-to-Black

Other drivers** DALI - Digital Addressable Lighting Interface
DMX - Digital Multiplex
Xitanium SR - For wireless sensor

Power over Ethernet MOLEX
POE drivers* IGOR
UL2108 certified for SMARTENGINE
integral or remote driver O - Other (Consult factory)

Emergency Integral emergency battery pack or emergency circuit optional.

Input Voltage 120V, 277V, 347V, UNV.

i Incorporating these components may have limitations or affect the length of the luminaire. Please contact factory for more details.

● CORNER DETAILS - LIT INSIDE CORNERS & CAST OUTSIDE CORNERS

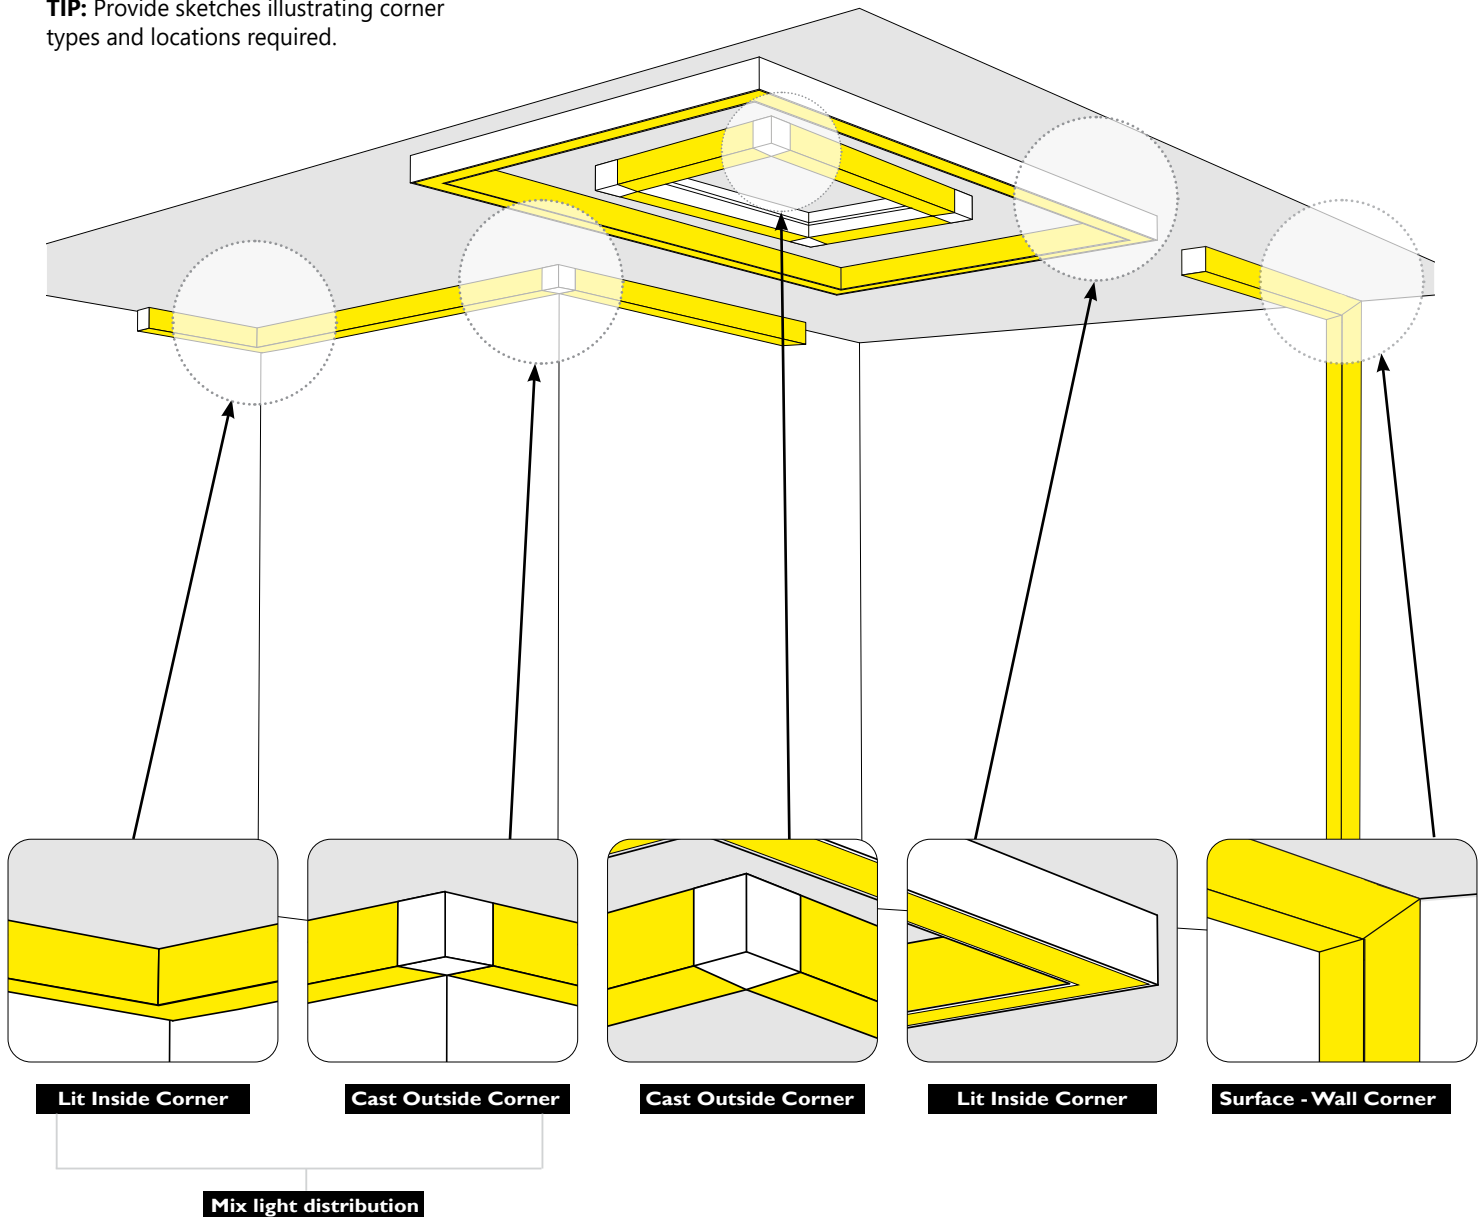

The Edge corner system is a combination of inside lit corners and outside cast corners.

To optimize inside corner illumination, lit corners are created as integral components of the linear sections. Linear sections have mitered ends that connect to corresponding mitered ends of neighboring linear sections.

Please note that outside corners are not lit. They make use of an unlit diecast metal corner hubs to adjacent sections of the pattern.

TIP: Provide sketches illustrating corner types and locations required.

IMPORTANT – all corner patterns must be submitted with drawings indicating dimensions and angles degree.

A large grid of squares, intended for drawing corner patterns. The grid is composed of 30 columns and 30 rows of squares, providing a space for technical drawings.
