Pose[®]

Ribbons of light featuring SurroundLite[®]

Combining **superior esthetics, quality performance** and **unparalleled versatility**, Pose offers new opportunities to capture the beauty and benefits of true asymmetric lighting without angled optics or bulky mounting hardware.

Step mount

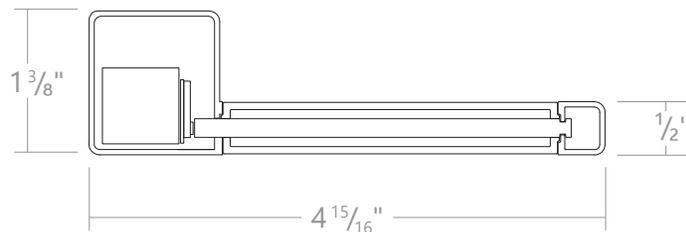

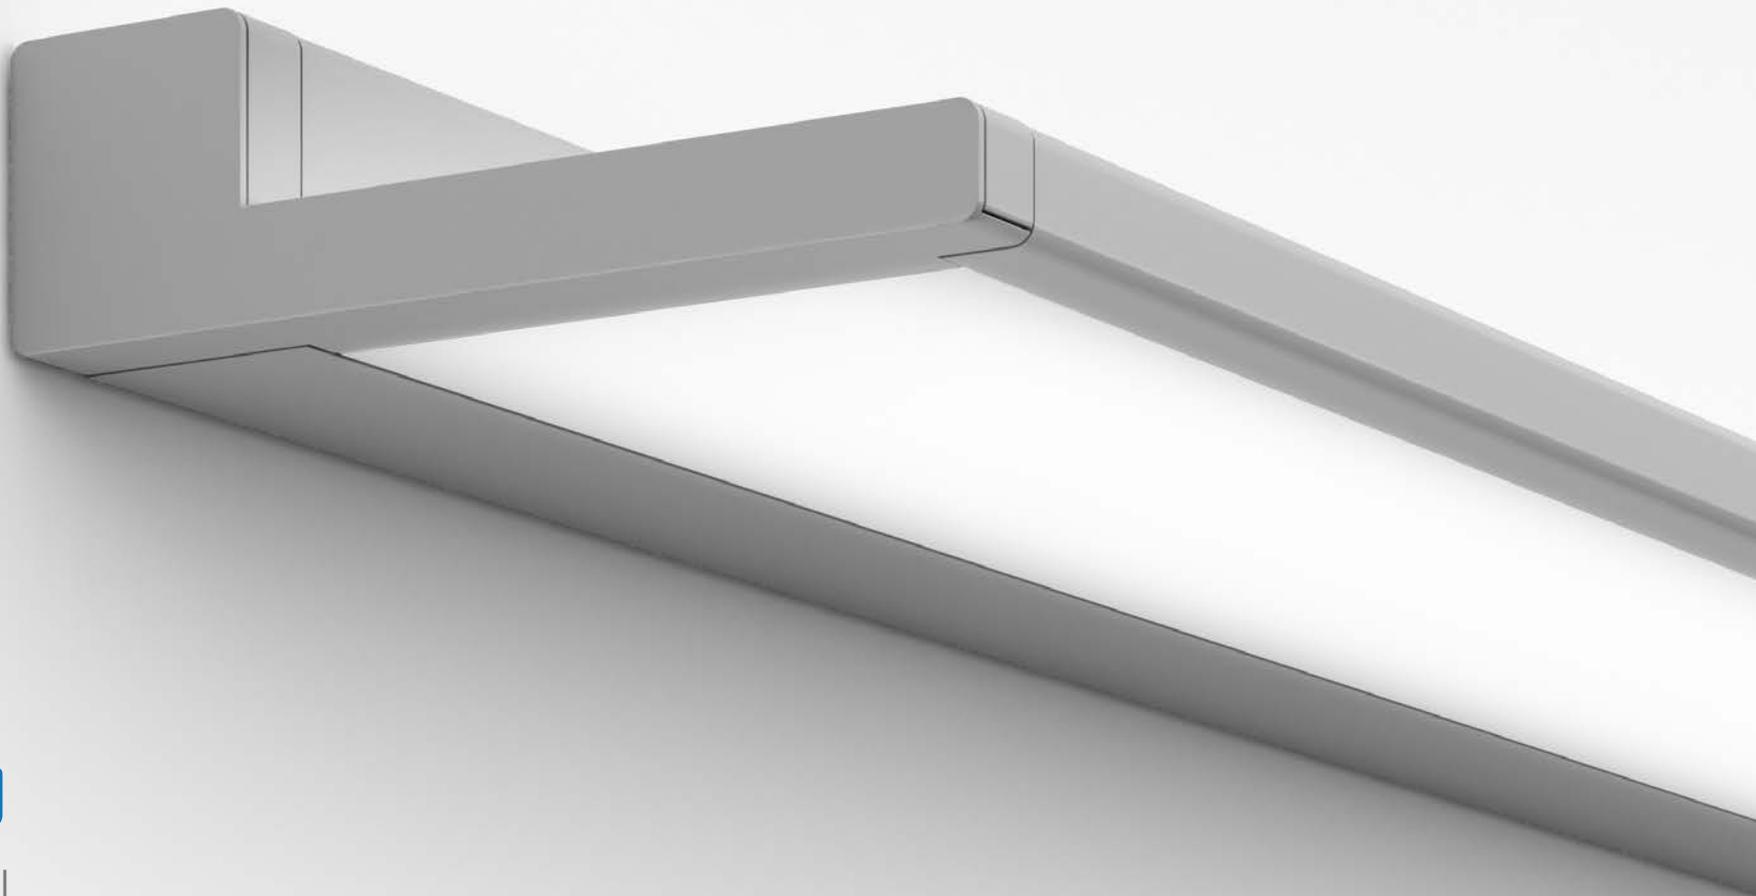

One clean look

A form that fits in nicely

Design simplicity and architectural esthetics lay the foundation of Pose[®], a timeless, compact form that lends itself to creating an appealing soft glow.

With its clean lines and lightweight aluminum construction, Pose appears to be floating. Its streamlined look is enhanced by a smooth, pixilation-free uniform lens.

Integral
Mini-driver

Two optics + Two sides

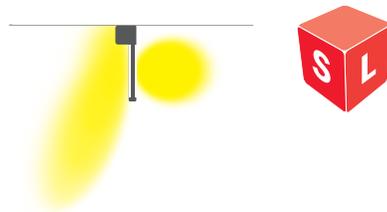

Lighting options you can work with

Choose between two optics – true asymmetric distribution or a soft Lambertian glow – for a total of four possible combinations (see page 14).

Pose® features two illuminated sides. The asymmetric light source is a patented SurroundLite® optic delivering superior performance and balanced luminance. The Lambertian optic produces a soft luminous effect that mitigates contrast.

Two illuminated sides

Pose generates ribbons of appealing light that are both visually comfortable and visually stunning.

Two mounting planes

Endless design possibilities

From the simplicity afforded by two optics, two illuminated sides and two mounting planes come unlimited surface and wall lighting design options...

On any of its two mounting planes, Pose® can be installed with the driver compartment pointing up or down, horizontally or vertically. In addition to continuous runs, Pose can be used in patterns and corners, as well as in coves.

Pose® Knife Edge

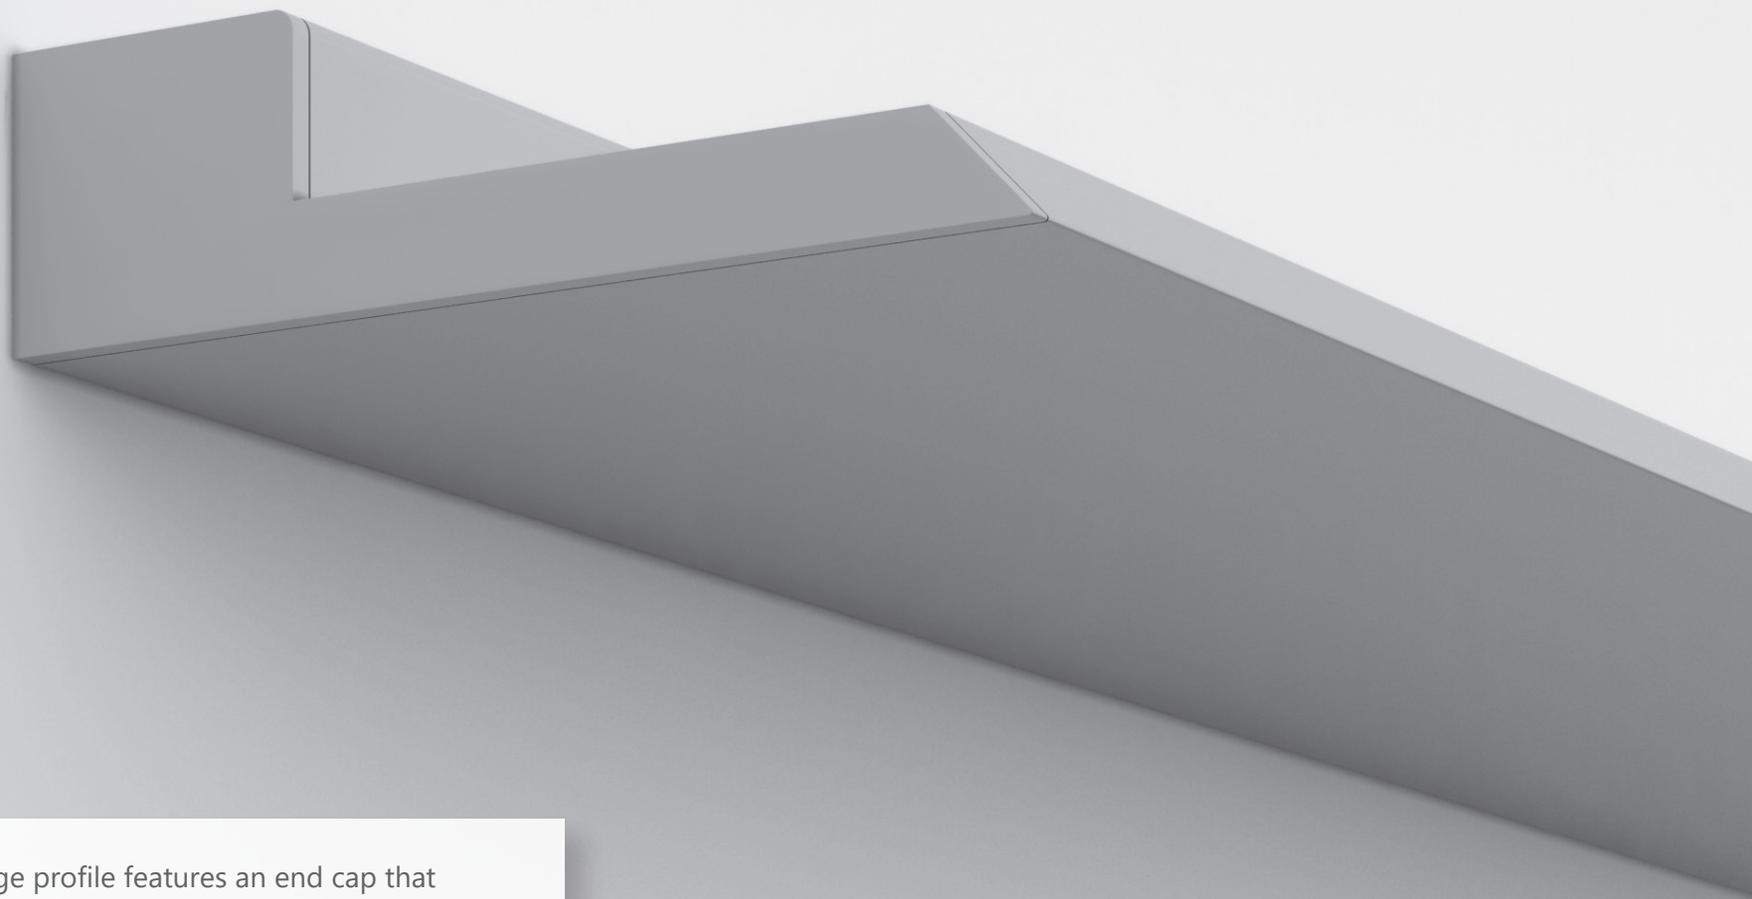

Ideal for cove-less coves

This version of Pose features the smallest knife-edge profile in the lighting industry. Made of a single extrusion, Pose Knife Edge is available with a solid, non-luminous bottom and asymmetric uplight optic. Continuous runs and corner patterns also available.

Pose Knife Edge lets you add cove details in a space without the hassle and cost of building coves. Use the luminaire as a shallow ledge or hidden indirect light source to create your own cove-less cove solution.

Right angle mount only

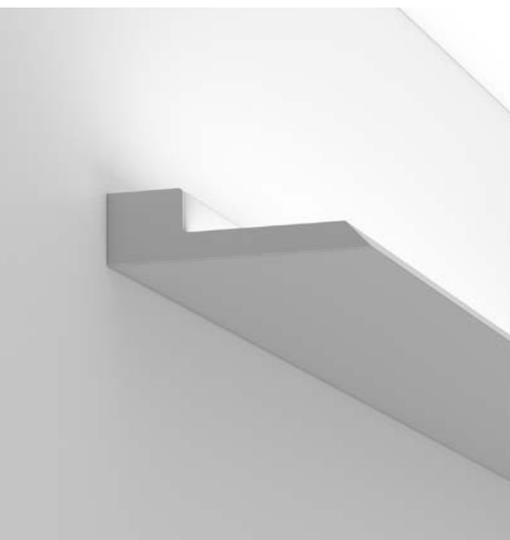

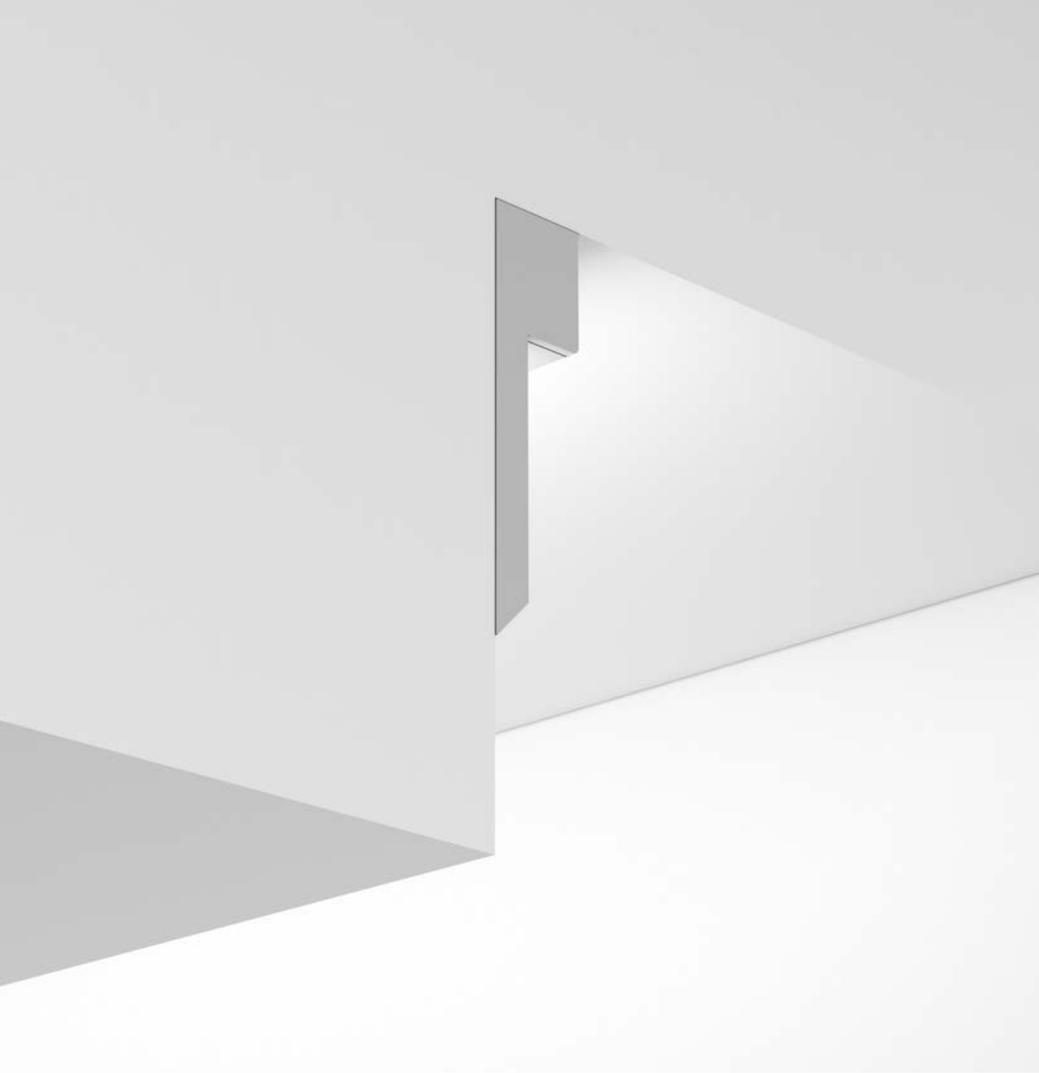

The knife-edge profile features an end cap that hides the mounting hardware, resulting in seamless architectural integration.

Creative cove lighting

Open up the space in unexpected ways

Use Pose® with an asymmetric optic for existing coves or create cove-less coves with a second illuminated side emitting a soft glow. Produce cove lighting effects in recessed pockets of space and ceiling indents.

Pose and Pose Knife Edge let you save on cove construction time and materials, design detailing and coordination. Pose is also suitable for cove retrofits, whether mounted horizontally or vertically.

A wide range of distributions

With a maximum output of 1000 lm/ft and a choice of asymmetric SurroundLite® and Lambertian distribution combinations, Pose® is capable of delivering the light levels needed for the most demanding applications.

 <p>Pose Surface & Wall</p>		asymmetric	LUMENS %		lambertian lambertian	LUMENS %		asymmetric lambertian	LUMENS %		lambertian asymmetric	LUMENS %
			50%						50%			
		asymmetric	50%			50%			40%			60%

Wall mount distributions shown here also apply to ceiling mount applications (rotate 90°).

 <p>Pose Knife Edge</p>		asymmetric	LUMENS %
			100%

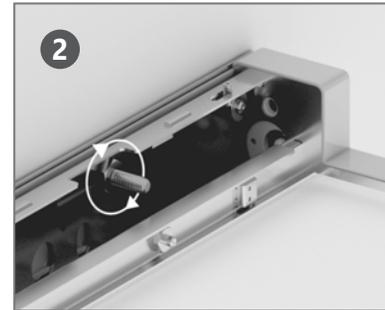

Minimal design, clean installation

*INSTALL MOUNTING TRACK

Position, level and fasten Pose track system to the wall or ceiling.

* Cette vue montre l'option **DF - Drywall Flange mounting track**. Pour consulter les autres options, veuillez vous référer aux instructions d'installation de Pose téléchargeables sur le site web d'Axis Lighting

ATTACH FIXTURE

Remove cover. Align fixture mounting holes with anchoring bolts on track system. Tighten to secure.

POWER

Make electrical connection.

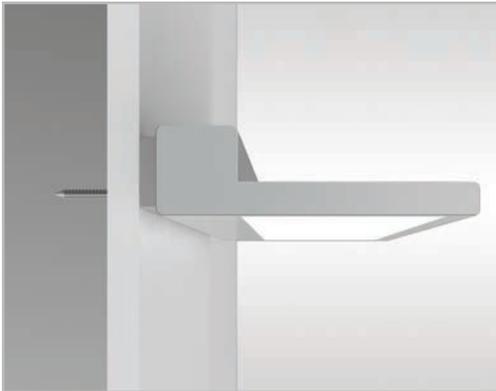

COVER, SET AND LIGHT IT UP!

Snap in cover and tighten set screw.

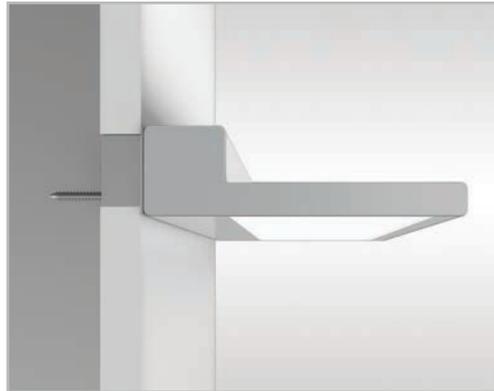

Mounting flexibility, multiple application solutions

With its innovative design and mounting flexibility, Pose® could easily result in the broadest number of applications ever offered by a single luminaire.

About Axis Lighting

Founded in 1991 and still family owned and managed, Axis is an important source for architectural lighting across North America and around the globe.

Over the last decade, the company has exhibited remarkable growth thanks to its commitment to Design Flexibility, Optimal Energy Efficiency and Responsive Customer Care. That leadership effort now extends to developing Innovative Lighting Technologies, such as SurroundLite®, on an ongoing basis.

On the strength of a broad and expanding product line, Axis has successfully completed lighting projects for high-profile clients including Apple, Chrysler, The Empire State Building, Google, Hyundai, Time Warner and McGill University, among many others.

Axis has the drive and the expertise to meet your needs and provide architectural lighting... your way.

We reserve the right to change specifications without notice.
Please consult our website for the most current technical information
and to locate your nearest Axis representative.
