

SkyeFall

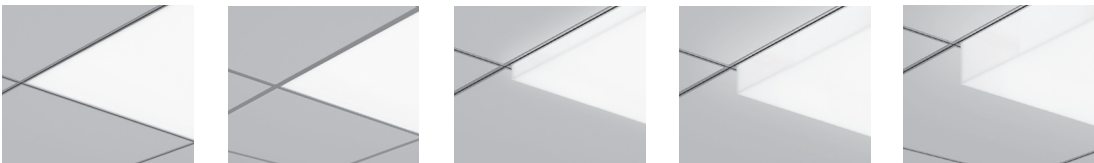

Featuring a planar recessed 2'x2' footprint that delivers a clean esthetic whether on its own or in combination with different lens depths to form stunning luminous ceilings. Indeed, SkyeFall presents a choice of drop-lens heights, from flush to 7", for a fresh, new approach to playing with illuminated volumes. On top of adding interest to the ceiling line, SkyeFall lets you add layers of luminance to adjacent ceilings and walls based on the selected drop-lens dimension.

SkyeFall is a quality product with crisp corners and a uniform glow, all in a recessed housing less than 5" deep. Flexible, luminous and playful – made to inspire.

Size	Depth	Output	CRI	Color Temp.	Voltage	Finish	Driver
2'x2'	4 5/16"	2400-4000 lm	80 90	3000K	120V	White	0-10V - 1% Standard
				3500K	277V		Lutron
				4000K	347V		Bi-level dimming
					UNV		Other
